

Athena Grand Tiered Crystal Chandelier

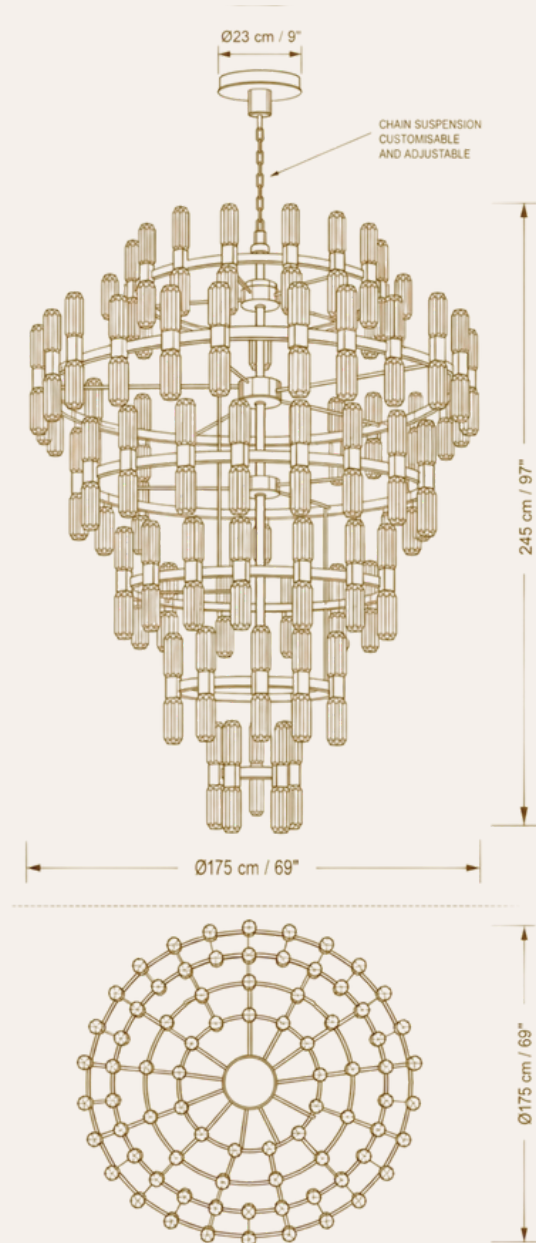

The Athena Grand Tiered Crystal Chandelier is conceived for architecture on a monumental scale, where lighting defines volume, proportion, and arrival. Cascading tiers of precision-cut crystal and a refined gold structure create a commanding focal point that transforms grand interiors into timeless expressions of luxury and architectural elegance.

Materials & Construction

The Athena Grand Tiered Crystal Chandelier is engineered around a precision-fabricated iron framework finished in polished gold, providing exceptional structural stability for its monumental scale. A+ grade lead-free crystal prisms are meticulously arranged across six cascading tiers to maximise clarity, brilliance, and controlled light refraction. Ninety integrated LED light sources deliver powerful yet balanced illumination throughout the crystal composition, while the adjustable chain suspension enables precise installation in grand architectural environments with exceptionally high ceilings.
