- Monumental French Empire-inspired architectural design
- Handcrafted limited-run production
- Ornate sculptural detailing throughout the entire structure
- Multi-tier composition for exceptional visual depth
- Designed for double-height and grand architectural interiors
- Exclusive to HDLS Lighting Ltd

### Materials & Construction

The Élysée Grand Impériale Chandelier is handcrafted from solid 24K gold-plated copper using traditional metalworking techniques refined for contemporary architectural lighting. Every decorative arm, central column, and structural component is individually cast, finished, assembled, and inspected to achieve exceptional dimensional accuracy and long-term structural integrity.

Its monumental multi-tier composition supports 113 candle-style light sources arranged to create balanced illumination throughout expansive interiors. The reinforced frame is engineered specifically for large architectural volumes, while the adjustable suspension system allows each installation to be tailored precisely to ceiling height and project requirements. Every chandelier is produced as a limited-run architectural commission, ensuring exceptional craftsmanship, exclusivity, and enduring performance.

## ARCHITECTURAL PRODUCT SPECIFICATION

---

The *Élysée Grand Impériale Chandelier* is created for architecture that demands extraordinary scale and enduring distinction. Combining the grandeur of French Empire design with meticulous contemporary craftsmanship, it becomes far more than a source of illumination—it is a permanent architectural landmark that defines the identity, prestige, and character of exceptional interiors.
