Materials & Construction

The Manhattan Axis Crystal Wall Sconce is handcrafted from solid 18K gold-plated copper, chosen for its exceptional strength, corrosion resistance, and enduring architectural finish. Suspended from a precision-engineered vertical arm, A+ grade lead-free precision-cut crystal is meticulously arranged to produce controlled light refraction, exceptional clarity, and a soft architectural glow. A tailored brown leather-wrapped band introduces warmth and tactile refinement, echoing New York's tradition of craftsmanship and contemporary design. Every wall sconce is individually assembled by skilled artisans before undergoing HDLS Lighting Ltd's comprehensive 25-stage quality control process, ensuring flawless construction, premium finishing, and dependable long-term performance.
