- Precision vertical crystal composition
- Soft architectural light distribution
- LED compatible
- Fully dimmable with a compatible lighting system
- Adjustable suspension cables supplied
- Handcrafted by skilled artisans
- 25-stage HDLS quality inspection process

Materials & Construction

The Manhattan Square Crystal Chandelier is handcrafted from solid 18K gold-plated copper, selected for its structural strength, corrosion resistance, and enduring richness. Precision-cut A+ grade lead-free crystal forms a carefully composed arrangement of vertical crystal spires that maximise clarity and controlled light refraction while preserving architectural restraint. A tailored brown leather-wrapped band introduces warmth and tactile refinement, creating a sophisticated transition between metal and crystal. Every chandelier is individually assembled by skilled artisans before completing HDLS Lighting Ltd's rigorous 25-stage quality control process, ensuring exceptional craftsmanship, flawless finishing, and long-term reliability.
