Materials & Construction

The Plaza Crown Crystal Pendant is engineered from architectural-grade stainless steel and finished in polished chrome, providing exceptional structural stability and a refined contemporary aesthetic. Precision-cut A+ grade lead-free crystal elements are individually positioned to form the collection's signature crown profile, maximising brilliance while maintaining disciplined architectural geometry.

Its sculptural composition delivers balanced illumination and controlled crystal refraction, creating an elegant atmosphere suited to both intimate and open-plan interiors. Designed for longevity, the pendant combines precision engineering, premium materials, and meticulous craftsmanship to achieve enduring architectural performance.

ARCHITECTURAL PRODUCT SPECIFICATION

The Plaza Crown Crystal Pendant combines sculptural form, architectural precision, and exceptional crystal craftsmanship into a refined lighting statement. Designed to complement contemporary luxury interiors, it delivers balanced illumination, enduring material quality, and timeless elegance while extending the distinctive design language of the Plaza Crystal Collection.
