- Polished chrome finish
- Wall-mounted architectural lighting

Materials & Construction

The Plaza Crown Crystal Wall Sconce is engineered from architectural-grade stainless steel and finished in polished chrome, providing exceptional durability and a refined contemporary appearance. Precision-cut A+ grade lead-free crystal blades are carefully aligned to form the collection's signature crown-inspired silhouette, producing controlled brilliance while maintaining clean architectural lines. LED-compatible illumination is diffused through the layered crystal composition, creating balanced ambient lighting with exceptional clarity. Every fixture is individually assembled and inspected to ensure long-term structural integrity and consistent craftsmanship.

ARCHITECTURAL PRODUCT SPECIFICATION

The Plaza Crown Crystal Wall Sconce delivers architectural sophistication through sculptural form, precision-cut crystal, and enduring material quality. Designed to complement the Plaza Crystal Collection, it introduces refined illumination, balanced proportions, and timeless elegance to luxury residential and hospitality interiors while extending a cohesive architectural lighting language throughout the space.
