

Solaris Ignis Wall Sconce

Solaris Ignis is a sculptural crystal wall sconce that extends the architectural language of the Solaris collection beyond the ceiling plane. Crafted from 18K gold-plated copper and A+ grade lead-free crystal, it delivers controlled brilliance, material refinement, and visual continuity for luxury interiors where lighting forms part of the architecture itself.

ARCHITECTURAL PRODUCT SPECIFICATION

SKU: HDLS#SolarisIgnis

Technical Specification

- Overall height: 62 cm (24")
- Overall width: 38 cm (15")
- Body projection: 15 cm (5 7/8")
- Approximate weight: 15 kg (33 lbs)
- Four sculptural crystal modules
- Premium 18K gold-plated copper structure
- A+ grade lead-free faceted crystal
- Architectural vertical composition
- LED compatible
- E14 lamp holders
- Voltage: 90–260V
- Suitable for 110V and 220V installations
- Dimmable with compatible dimming systems
- Wall-mounted installation
- Indoor use only
- Professional installation recommended
- 18-month manufacturer warranty

Certifications

- UKCA Certified
- CE Certified
- UL Certified
- CSA Certified
- RoHS Compliant

Product Features

- Architectural Crystal Wall Sconce
- Solaris Collection Design Language
- Four-Module Sculptural Composition
- Premium Copper Construction
- Precision-Cut Crystal Elements
- Vertical Architectural Orientation
- Dimmable Lighting Capability
- Suitable for Luxury Residential
- Hospitality & Commercial Suitable
- International Voltage Compatibility
- Wall-Mounted Installation

Materials & Construction

Solaris Ignis is handcrafted using premium copper construction and finished in polished 18K gold plating, creating a refined architectural framework that complements both contemporary and classical luxury interiors.

Its four faceted crystal modules are manufactured from A+ grade lead-free crystal and individually assembled to create a balanced geometric composition. The crystal arrangement captures, diffuses, and refracts light through carefully controlled angles, producing layered illumination with clarity and depth rather than excessive sparkle.

Designed as the wall expression of the Solaris collection, Ignis mirrors the sculptural geometry found throughout the chandelier series, allowing designers to create a unified lighting language across ceilings, walls, corridors, staircases, and reception environments.

ARCHITECTURAL PRODUCT SPECIFICATION

Solaris Ignis completes the Solaris collection by bringing the same architectural discipline, crystal precision, and refined material palette to the vertical plane. Designed to enhance circulation spaces and feature walls, it delivers continuity, atmosphere, and sculptural presence while reinforcing a cohesive luxury lighting composition.
