

Solaris Mira

Solaris Mira is a jewel-scale architectural crystal pendant designed for intimate luxury interiors where proportion, precision, and material refinement shape the atmosphere. Crafted from polished 18K gold-plated copper and A+ grade lead-free crystal, Mira delivers controlled brilliance and sculptural clarity, bringing architectural light to carefully curated spaces.

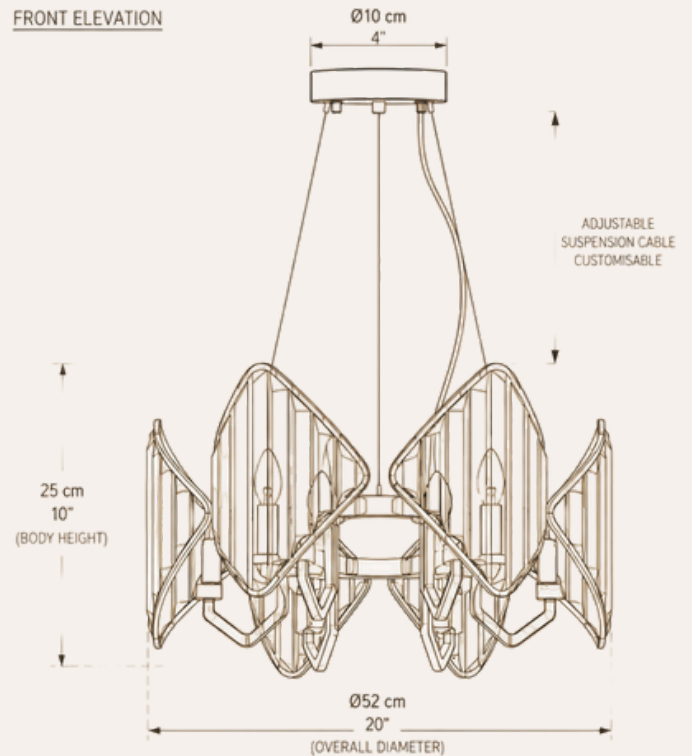

ARCHITECTURAL PRODUCT SPECIFICATION

SKU: HDLS#SolarisMira

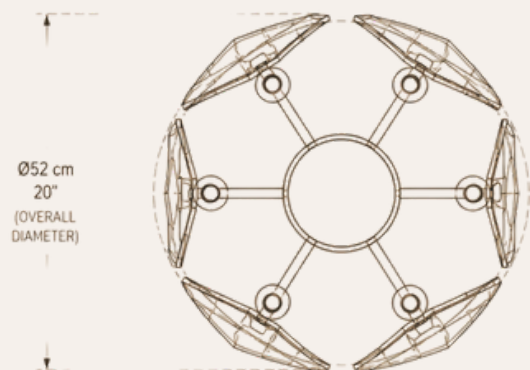

Technical Specification

- Diameter: 52 cm (20")
- Body height: 25 cm (10")
- Minimum suspension drop: 30 cm (12")
- Standard suspension length: 150 cm (59"), adjustable
- Approximate weight: 18 kg (40 lbs)
- One-piece integrated pendant construction
- Solid copper framework
- Polished 18K gold-plated finish
- A+ grade lead-free crystal
- Precision-cut crystal prisms
- 6 × E14 light sources
- Recommended 4–6W LED E14 bulbs
- Dimmable with compatible bulbs and controls
- Universal voltage: 90–260V
- Adjustable suspension system
- Professional installation recommended

Certifications

- UKCA Certified
- CE Certified
- UL
- CSA Compatible
- RoHS Compliant

Product Features

- Architectural Crystal Pendant Light
- Solaris Collection Design Language
- One-Piece Integrated Pendant Construction
- Solid Copper Framework
- Precision-Cut Prism Geometry
- Six-Light Configuration
- Dimmable Lighting Capability
- Adjustable Suspension System
- 18-Month Warranty

Materials & Construction

Solaris Mira is crafted from solid copper and finished in polished 18K gold plating, creating a refined architectural framework that balances durability with visual elegance. Its carefully proportioned structure allows the pendant to deliver meaningful presence while remaining perfectly suited to smaller luxury environments.

The fixture incorporates precision-cut A+ grade lead-free crystal elements arranged within a symmetrical radial composition. Each crystal prism is individually aligned to maximise clarity, refraction, and multidirectional light dispersion. When illuminated, the composition produces subtle reflections and controlled brilliance that enhance marble surfaces, polished stone, lacquered cabinetry, decorative metals, mirrors, and luxury textiles.

Inspired by orbital symmetry and disciplined architectural geometry, Solaris Mira is designed to create visual rhythm and luminous depth without overwhelming the surrounding space.
