Materials & Construction

Zarrin Luceris is manufactured from premium stainless steel and finished through an advanced multi-layer 24K gold electroplating process that provides exceptional colour consistency, durability, and long-term resistance to wear.

Individually precision-cut A+ grade lead-free crystal elements are arranged beneath the refined architectural structure to create layered illumination and subtle prismatic reflections, enhancing contemporary interiors with balanced light and sculptural elegance.

ARCHITECTURAL PRODUCT SPECIFICATION

Created for interiors where refinement is expressed through restraint rather than excess, Zarrin Luceris combines disciplined proportion with enduring materials to establish a timeless architectural focal point. Its luminous crystal composition, balanced geometry, and bespoke craftsmanship define spaces with clarity, permanence, and understated luxury.
