

Zarrin Valeris

Zarrin Valeris is an architectural linear chandelier where disciplined proportion, precision engineering, and refined materials create lasting visual balance. Finished in 24K gold electroplated stainless steel and illuminated through A+ grade lead-free crystal, it introduces structured elegance to contemporary dining spaces and bespoke luxury interiors.

Product Features

- Stainless Steel Electroplated in 24K Gold
- A+ Grade Lead-Free Precision-Cut Crystal
- Hand Assembled & Precision Finished
- Individually Quality Inspected
- 110–120V / 220–240V Compatibility

Certifications

- UKCA
- CE
- UL
- Adjustable Suspension System
- Worldwide Project Coordination
- Insured International Delivery

Materials & Craftsmanship

Every Zarrin Valeris chandelier is assembled from carefully engineered components selected for visual longevity and structural integrity.

The supporting framework is manufactured from premium stainless steel and electroplated in 24K gold through an advanced finishing process that delivers exceptional colour depth, durability, and resistance to wear.

Suspended beneath the structure, individually precision-cut A+ grade lead-free crystal elements create a disciplined rhythm of light that enhances marble, natural stone, timber, and contemporary architectural finishes while maintaining remarkable optical clarity.

ARCHITECTURAL PRODUCT SPECIFICATION

Designed for interiors where proportion, symmetry, and permanence define luxury, Zarrin Valeris establishes a confident architectural presence above dining tables and bespoke kitchen islands. Its disciplined geometry, enduring materials, and balanced illumination reflect HDLS Lighting's commitment to creating timeless statement pieces conceived to remain relevant for decades.
